BODA PRIYANKA

Hyderabad, Telangana | +91 96183 21465 | priyankaboda@838gmail.com| LINKEDIN | *GITHUB*

Professional Summary

BCA graduate (2026) with foundational knowledge in data analysis, cybersecurity, and technical support. Familiar with Python, SQL, and Power BI, with hands-on exposure through academic projects and internships. Able to work with datasets, perform basic analysis, and support technical tasks. Strong communicator with experience in teamwork and leadership through academic and volunteer activities. Eager to learn, adapt, and build technical skills in a professional MNC environment.

Work Experience

Data Analysis with LLMs Intern **Sept 2025 – Oct 2025**
Vodafone Intelligent Solutions (VOIS) *Virtual*

- Analyzed **7,700+ Netflix records** and **102,000+ Airbnb listings** using Python (Pandas, Plotly) and SQL to surface content trends, genre demand, pricing patterns, and seasonal revenue signals.
- Leveraged **LLM-based pipelines** for automated insight extraction, reducing manual reporting effort and improving turnaround for business stakeholders.
- Produced executive-ready dashboards and visual summaries with Plotly and Power BI to support data-driven decision-making across product and strategy teams.
- Demonstrated proficiency in **end-to-end data lifecycle**: ingestion, cleaning, EDA, visualization, and stakeholder reporting.

Technical Support & Data Quality Analyst **May 2025 – Sept 2025**
Synthoquest Private Limited *Remote*

- Delivered **real-time technical support to 8,300+ MBA & MCA students** during high-stakes online examinations, maintaining near-zero disruption rate under strict SLAs.
- Diagnosed and resolved system access, connectivity, and platform issues via **remote troubleshooting**, ensuring seamless exam participation.
- Verified exam-readiness protocols, coordinated issue escalations, and maintained clear cross-functional communication under time-critical conditions.
- Built a reputation for **calm, effective user communication** and systematic problem resolution—skills directly transferable to client-facing and operations roles.

Cybersecurity & Penetration Testing Intern **May 2025 – July 2025**
Cyber Secured India *Virtual*

- Completed a **3-month hands-on cybersecurity internship** covering vulnerability assessment, ethical hacking, threat analysis, and incident response methodologies.
- Applied industry-standard tools (Metasploit, Burp Suite, Nmap, Wireshark) to simulate real-world attack scenarios and identify security gaps in IT infrastructure.
- Developed working knowledge of **network security, risk assessment frameworks, and security documentation**—applicable to GRC, IT audit, and risk consulting roles.

Key Projects

Netflix Content Analysis — Python, Pandas, Plotly

- Engineered a **full EDA pipeline on 7,700+ records**; identified high-demand genre clusters and underrepresented markets to inform content acquisition strategy.

Airbnb Booking & Pricing Analysis — Python, SQL, Power BI, Matplotlib

- Processed **102,000+ listings** to model seasonal pricing dynamics and occupancy trends; visualized findings in Power BI for host profitability recommendations.

Steganography – Secure Image-Based Data Hiding — Python, XOR Encryption

- Built a password-protected **covert messaging system** embedding encrypted text within image files using XOR-based steganography—demonstrating applied cryptography skills.

Technical Skills

Languages & Querying: Python, SQL

Data & Analytics: Pandas, NumPy, Matplotlib, Plotly, Power BI, Jupyter Notebook, Google Colab, Excel

Cybersecurity: Metasploit, Burp Suite, Nmap, Wireshark, Ffuf, Vulnerability Assessment

Dev & Infrastructure: Git, Linux, DBMS, VS Code

AI / LLM Exposure: LLM-assisted analytics, prompt engineering, automated insight extraction

Soft Skills: Stakeholder Communication, Cross-functional Collaboration, Problem-Solving, Leadership, Project Coordination

Leadership & Volunteering

Vice-Captain & Academic Support Volunteer **Jul 2025 – Jan 2026**
Make A Difference (MAD) – Guntur Chapter *Guntur, Andhra Pradesh*

- Led a **10+ member volunteer team** — handled recruitment, onboarding, training, and performance evaluation for city-level educational initiatives.
- Mentored **25+ underprivileged students** in academic and life skills; tracked progress, identified learning gaps, and delivered personalized academic support.
- Coordinated city-level program logistics, reporting, workshops, and engagement events in collaboration with the City Team and program Fellows.

Certifications

- Artificial Intelligence & ML Fundamentals – *Accenture*
- Cybersecurity – *Google / Coursera*
- Excel & SQL for Data Analytics – *Analytics Vidhya*
- Data Visualization – *Vodafone Idea Foundation*
- Hands-On Penetration Testing with Metasploit – *Infosys*

Education

Bachelor of Computer Applications (BCA) **2023 – 2026**
B.H.H. Degree College for Women, ANU – Guntur, Andhra Pradesh ***CGPA: 8.7 / 10***

Intermediate (MPC / BIPC) **2020 – 2022**
Sri Chaitanya Junior College – Guntur, Andhra Pradesh ***CGPA: 7.01 / 10***

Class X (CBSE) **2019 – 2020**
Top Kids School – Guntur, Andhra Pradesh ***CGPA: 8.14 / 10***
